**A Hand Up...
Not a Hand Out**

Daniela and her family attending church services in Cardboard-Landia

Daniela is an amazing woman in her early thirties. She is a very hard worker, a good mother, wife and daughter. She claims that she can do anything that a person with two arms can do. You see, Daniela does not allow her special needs to define her. Daniela was born with just one arm and a shoulder with a nub in place for her second arm. Daniela is a faithful helper at Vida Community Center in Mezcales and is now attending our Congregation in Cardboard-Landia. Their family is coming to faith in Jesus Christ and are being discipled through our ministry. She is currently working with her father to build a tiny home to shelter her family from the torrential rainy season which is now beginning. They are living underneath a sheet of black plastic for a roof. The pressure caused by fear of her family not having proper shelter has landed Daniela in the hospital with high blood pressure and stroke symptoms. We have gifted her family with funds to purchase the roofing material to try to alleviate the stress.

One day while visiting Daniela and her father at the construction site, I was talking to her father. He made it clear that he could not become a Christian because he had a legal wife and family and several other women who have mothered his children outside of marriage. I responded that there is room at the cross for him. I told him that God

Daniela passing materials to her Dad.

can change his life and that he can do right. I explained that with God, every day can be a new beginning. Daniela's father is not married to her mother, but he is now attending our church in Cardboard-Landia. Please keep Daniela and her family in your prayers. Unless the Lord builds the house they labor in vain who build it.

Together we're changing lives through the power of Christ.

Thank you and God Bless!

Joe & Carol
