God is at work in the details. It was never our goal to start a literacy school at the city dump, but instead to rescue undocumented children who were trapped in poverty and give them a way out. We began teaching reading, writing, arithmetic and English because many of the children living in the dump were not getting an education and were destined to remain impoverished. Out of necessity we began this work. Last year we were able to get twenty five children enrolled into public school and this year an additional fifteen. As soon as these children moved on to public school, new children would walk through our doors and the chairs and tables would fill once again.

Through a series of events a great door of opportunity is opening up for these little ones because of prayer, advocacy and even a divine blunder. Now the Mexican officials are stepping up to facilitate our remaining children in the program. It began as our team met with school officials who worked with us as we helped families to document their children. Space was limited and only certain children were able to be admitted into public school. Meanwhile, unrelated to all this... we had been working on a campaign to deparasite one hundred and fifty children and their parents. A letter asking for help with this campaign was misdirected to Social Services.

When Social Services read our request to the Mexican government on behalf of these children, Social series replied that they along Mexican Federal government have begun a new program to work with

LSMI board member Rev. Randy Barr casting vision for local Mexican Pastors at a breakfast sponsored by our Bible Institute Vida Internacional .

undocumented marginal children and fast track them into public school, helping them to get a school uniform, waving annual enrollment fees and working with their families to get proper documentation. They also guaranteed placement for all the children in school. Praise The Lord! Next school year our program will transition from a literacy school to an after school program to help the kids with their home work. Our Mission remains the same Feeding Children Body, Soul and Spirit!

Together We are Life Savers,

Lee & Carol

Prayer Requests:

1. There is a potential opportunity that may develop with a Korean Christian satellite network and an accredited Bible school to partner with us and broadcast our Video Bible School curriculum, Vida Internacional. Our Mission is to Make Disciples throughout the Spanish Speaking World, through our Bible Institute. Pray for God's will in this matter.
2. We have already begun construction and are in need of financial and human resources to development a Base of Operation in Mezcales. (To house ministry teams, offices, collection and distribution center and living quarters).

IT'S TIME TO BUILD a base from which future ministry will flow!!

Díos is in the Details...
