Monterrey- Known as the economic muscle of Mexico and one of the most productive industrial complexes in our hemisphere. It is Mexico's third largest city boasting of a 6 million plus populous of hard working people in a dusty and arid habitat. The smog lofts up from the cement plants and steel mills causing the surrounding mountains to fade into the horizon. I was on a mission, meeting with influential pastors telling them about our Bible school and distributing materials. At one of my working supper meetings my plate was full with three healthy enchiladas drowning in mole sauce (a slightly bitter chocolate gravy). I love it, but the real focus was on the spiritual food. I shared With Pastor Pablo Rocha and Pastor Garcia the vision of Vida Internacional and how they can have their own Bible School in their local church.

Mexico is where the vision of the Bible school was birthed and it seems fitting that it is the first country to receive our courses on DVD. We now have three of them in our new format. We are excited to take a quantum leap in our quality. This will improve our effectiveness in making disciples, many of our material are copied multiple times by the people who receive our materials. This new format will improve the second generation copies immensely. More people will be blessed and the Kingdom will be advanced.

I went into one of the lower income parts of town to minister at the Iglesia Filadelfia (Philadelphia Church). Pastor Israel Garcia the father of 8 children was a fruit vender when God called him into the ministry.

M E X I C O

He has been serving the Lord in full time service for a year now. It took him eleven years to raise up a congregation of 200 folks and they are in the process of opening a second mission to reach more people for Christ. They are currently holding evangelist services at the mission on Friday nights. It was a real blessing to minister in such a positive, spirit charged atmosphere. Two young teens responded to the message and they gave their hearts to the Lord. The young man Ernesto, told me after the service that he really likes the heroic spirit of the American people. I found that refreshing especially coming from someone his age. The world press makes it seem as if the whole world is anti American but its not!
