Dear Friends,

Imagine...stepping out in faith to do the impossible, not knowing how or where the resources will come from...doing all you can do, investing your own life savings, hoping, praying, believing that God will do that which he has placed upon your heart. Imagine...that others begin to see the vision and share from their own resources, and suddenly, that which was impossible is coming to pass. Imagine...that the very people that you want to reach, reach out to you, to do their part...to do all that they can do to bring about the vision to reach souls for the Kingdom of God.

One of these self-sacrificing Mexican brothers is David Rodriguez. David and his wife, Lucy, were some of our first Mexican Christian friends. David has donated not only his own time to doing the necessary welding in the construction of the facilities for the Video Bible school, to make the doors, windows, and railings. He is paying the salaries of the four men who work in his shop to give us a helping hand. He even paid the salary of seven men to set the heavy "I" beams for the ceiling. I heard him tell his non-Christian employees, "Do quality work because this is for the Lord." Imagine...if each of us contribute what we can...Imagine.

GOURMET'S CORNER

I was recently asked this question, "What are some of the Mexican dishes that you don't eat?" When we first moved to our ministry center here in Jocotepec, I would

- HEARD THEY SERVE THE FRESHEST MEAT IN TOWN

buy tacos from the stand near our home. They sell tacos de cabeza, which means tacos from the head of the cow. These tacos consist of the meat and fat from the face, the tongue (which we enjoy), the gristle from the nose and ears and even the brains!! The brains are white and mushy. They taste rather bland and icky even when rolled up in a tortilla with hot sauce and onions. My wife asked me not to buy from that place any more. I told her that I heard that brain tacos will make you as smart as a cow and they say that's no bull!!!

PRAYER REQUESTS

1. This month, focus your prayers on the acquiring of the S-VHS studio and editing equipment. T.V. equipment is very expensive, but we believe that the Lord will use this equipment and the facilities in these final hours to bring about a great harvest.

In His service,
