This past month a huge tornado of children's ministry touched down in Mezcales, Mexico. The camp SonShine team blew in and blessed the children. Every morning for four days we were ministering in the PUBLIC SCHOOLS, and the teachers and children loved it. We played games, the children sang Christian songs, interacted with the short dramas and the gospel was shared. Most of the niños responded by praying for forgiveness and salvation. Then, we rushed back to the ministry base to set up for round two; ministering to the children enrolled in our after school program.

The children had four hours non-stop activity. They ate, laughed at the skits, clapped, jumped and did their hand motions in praise and worship. They had specialized group activities, hand crafts and exciting science lab presentations with extraordinary scientific experiments mixing together colorful flasks and special drops that smoked, fizzled and popped and even produced artificial snow and the kids played in it. We investigated the uniqueness of Snow flake shapes and the individuality of finger prints, all to demonstrate how uniquely God has made each and every one of them and how very special they are to him.

The grand finale was a Friday night parent's presentation in our garden amphitheater decorated with white stringed lights and big colorful lantern balloons and a bubble machine that produced a cascade of glistening, bursting bubbles under the canopy of a gorgeous star lit night. The children took center stage as they sang and performed skits for their parents. There was a stirring video presentation of the children experiencing camp and we did a science experiment and presented the parents with the message of God's love. That week we ministered to over 750 children.
