Rosita Pierre is 14 years old, has a fever and cough and pain in her body. She has Covid19. We gave her a mask and the medicine that the health officials have prescribed so that hopefully it does not spread to other relatives who live with her. She says that ten people live in the same house. Nicole Vasson is a single mom and has 7 children to support without a husband, we provide her family with fresh water from our well at the Vida Center. Fresh water can cost several dollars a week, which is money she does not have; they live in unimaginable poverty. She is a Haitian and she along with her children living in their tiny shack are not vaccinated due to their lack of legal documentation. We have provided them with preventive medicines to raise their defenses and help their bodies fight Covid symptoms.

There are four new variants of the virus infiltrating Haiti, viscously attacking residents on both sides of the border of the tiny island. The hospitals beds in the Dominican Republic are completely full and over flowing from the pandemic. The poor people in Haiti have no vaccine or medical treatment of any kind until October according to Pastor Pedro, our Vida overseer for the Island. We have been sending relief funds on a monthly basis helping the families in the communities where our Vida missions are located in both countries. We also began to send medical aid along with our food staples. The recommended preventative generic medications cost about \$12 per person and these medications are saving lives in both prevention and treatment for those who are infected with the Covid 19 virus. We have purchased 100 kits of medications, 70 of those will go to the brethren in Ansi-Apiter Haiti, and the rest were used on the Dominican side of the border. I am so thankful for Pastor Pedro and all our Vida leaders who are working together to procure and deliver this aid. They travel hours on end searching in tiny drug stores for these lifesaving pharmaceuticals. I also want to thank

(Lee Short Ministries International)

all of you who partner with us to provide prayer support and the financial resources to carry out our mission. "To God be the glory!"

I was able to personally serve in Mexico, reaching out once again to my Community in Mezcales and in our beloved Cardboard Landia. I love to work the line before the food is served, chatting with my neighbors and checking on how their families are doing during these trying times. There are always new folks that have recently moved into our community. I love to see the way the people's eyes light up as we engage in caring conversation, sharing the love of God in a community setting.

This gives me an opportunity to invite them to receive spiritual food through ministry opportunities that we provide at our Vida Community Center. They are pleased to receive a sincere welcome and our expressed interest in their spiritual welfare. Of course we as a community pray and give thanks to God for His provision and for the hands that prepare the hot meals that they carry back to their homes and feed to their families. Thank you for making this possible.

Together We are LSMI/Vida Internacional!
