Fidel Castro's communist revolution seized power in 1959. There are now generations of Cubans who have lived their whole lives under the communist rule. Anyone 43 years old or younger was born into Castro's Cuba. These folks are accustomed to government programs designed to instill patriotism above all else, including family and religion. One such program is called 24 & 6. This is where young children are taken from their parents and go to school and live in primitive dormitories. They live away from their families 24 days and then come home for 6. This is so that they can be under the state's control and develop their loyalty to the state.

A pastor's daughter that I met on this trip refused to participate in what she called socialization. All university candidates must receive a certificate of socialization as part of their college preparation. This is a program where young people are encouraged to get familiar with the opposite sex at parties, dances and service in the harvesting of agriculture. She told me that boys and girls sleep in dormitories and the only separation is a curtain. She said there is no protection from being molested. As a result, this young lady will not be able to attend university. She told me that it is more important to her to remain a virgin and honor God and live under the protection of her father's roof than to receive this certificate.

Please pray for the youth of Cuba that they may be as full of conviction as this young woman, and pray that our video courses are continuing to help disciple this generation of Cubans for Christ

I ministered there while being under surveillance. The neighborhood block spies were watching my activities through binoculars as I worshipped and ministered. Just as the communists have their network of spies, they are not the only ones watching...The eyes of the Lord are watching also!
