May 1991

Dear Friends,

Wednesday, April the 10th at 5:00 a.m., Carol was admitted in the hospital in Birmingham, Alabama. She was diagnosed as having a growth the size of a golf ball in her thyroid. The surgeon removed the tumor leaving half of her thyroid intact.

The lab report came back on April the 15th. They found Cancer! The following day Carol returned to the hospital. On the 17th she passed beneath the surgeon's scalpel once again. The nurse trainee fainted during the operation and was taken to the recovery room. She recuperated in the bed next to Carol. In response to her fainting she said, "I never saw anyone get their throat slit before."

We are very thankful for all the professional care from the doctors and nurses and for your prayers, love and support during this time. Carol will be taking hormone pills to replace the function of her thyroid. She is A-O.K. now, as someone once said "all's well that ends well" and thank you Jesus, She's Well.

ANSWERED PRAYER

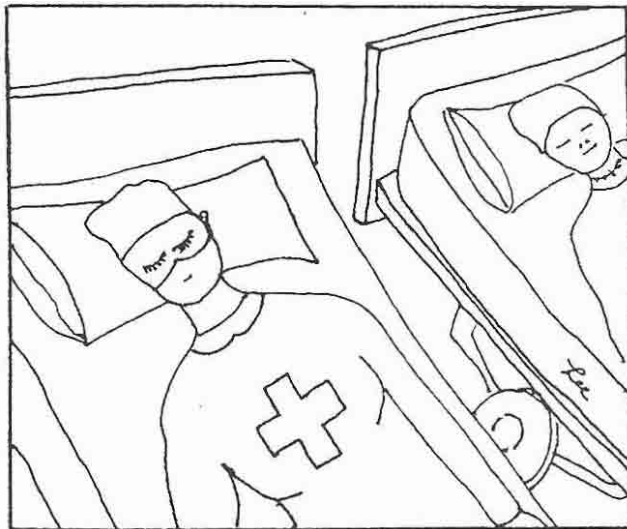

Our children now have a school teacher! This gift from God via Laurel, MD is Janet Breiner. She will come down for a four month trial period and then after that an annual commitment for each school year. P.T.L!
